

Creek Connections 2024-2025

The Creek Connections year started off wonderfully at the Summer Institute. We gathered at Allegheny College and took a field trip to nearby Woodcock Creek. The reminders and takeaways from the day can be found [HERE](#). The coffee from French Creek Coffee & Tea, food from Meadville Eats and cookies from Grammy Stephe's Bakery were SO good!

Please have your students complete the [Before Project Feedback Survey](#) before we meet your students for the first time. They can do it through the online form or on paper.

Contact Laura (lbranby@allegheny.edu) or Wendy (wkedzier@allegheny.edu) to schedule school and creek visits as well as loaner [module deliveries](#). See which modules we [have to offer and make a reservation here](#).

Find the Letter of Agreement and lots of other information for the upcoming school year on the [Teacher Resources Center](#).

Student Research Symposia - save a date to attend either at Allegheny College on April 11, 2025 or at YMCA Camp Kon-O-Kwee April 25, 2025.

We are here to support you! Never hesitate to **contact us** with questions, ideas or scheduling!

About Us

Allegheny College and regional K-12 schools to turn waterways into outdoor environmental laboratories. Emphasizing hands-on, inquiry-based investigations, students have the opportunity to practice real science using a natural resource located in their own backyards. The result of this water science education is a productive collaboration leading to a new focus on scientific literacy, environmental stewardship, and research for students at all levels.
