

## **Tentative Site Sampling Schedule 2023-2024**

A tentative schedule of sampling weeks is listed below. These are weeks to strive for, but we realize that it's probably optimistic to think that everyone will be able to be in sync with this schedule. Our goal is to obtain a sample every month for each site, with some weeks omitted in the winter months when the waterways freeze.

Week of Monday	August 28, September 4 or 11 or 18 = Invite Creek Connections staff to give Interactive Introduction to Creek Connections. Have your students complete the <a href="#">BEFORE survey</a> .
Week of Monday	September 4 or 11 or 18 or 25 (whenever is best to begin for you) – SAMPLE

DEADLINE	May 1 – Deadline to spend money, submit equipment receipts / invoices for reimbursement, no more spending money on supplies and equipment. (Bussing and substitute invoices will continue to be accepted until June 15)
DEADLINE	Late June – Submit End of the <a href="#">Teacher Year Project Evaluations</a>

You may elect to continue sampling in the spring through the remainder of the school year. If you do, we can still help, and please continue to send in the data.

As soon as possible, please try to set a regular date and time of day you will be conducting field samples. This will give us the best opportunity to locate Project Assistants that can assist you. The more notice you give us for when you are going out sampling, the better chance we have of supplying assistants.
