We dedicate our performance of *On a Hymnsong of Philip Bliss* to the memory of Professor Robert Cupper, who lost his battle with acute leukemia on January 3, 2013. In the words of President Mullen, “The College has lost a great teacher, and many of us have lost a dear and cherished friend.” Dr. Cupper, or “Cup” as he was affectionately known, joined the Allegheny faculty in 1977 as an economics professor. He served as chairman of the computer science department from 1981 to 2005. His students and colleagues alike have described the huge effect that Dr. Cupper has had on their lives. He was more than an outstanding teacher. As his colleague Dr. Robert Roos said, “. . . he was a friend, an advocate, a mentor, a role model, sometimes even a surrogate father.”

Cup was a very visible and valuable supporter of music at Allegheny, where he encouraged his students to become and remain active music-makers. He and his wife Sandy could always be found in attendance at concerts, and following the performances he would always offer kind words with a big smile and an extended hand. He will be sorely missed by his musical family.
