When accessing your Health Insurance form, you’ll need to log into Self Service using your Allegheny login and password. Then you’ll click on the left icon that looks like a little person in a circle. This will get you into the “User Options” Menu. When you click the drop down, you will see several options.

When you click on “Agreements” you will see the “College Sponsored Insurance Coverage” and you can click on that to accept or decline the college sponsored Health insurance.
