

Once you have created your Microsoft Account at <https://www.microsoft.com/en-us/education/products/office>, use the following instructions to download Word, Excel, and other Microsoft apps to your device. You may do this on multiple devices.

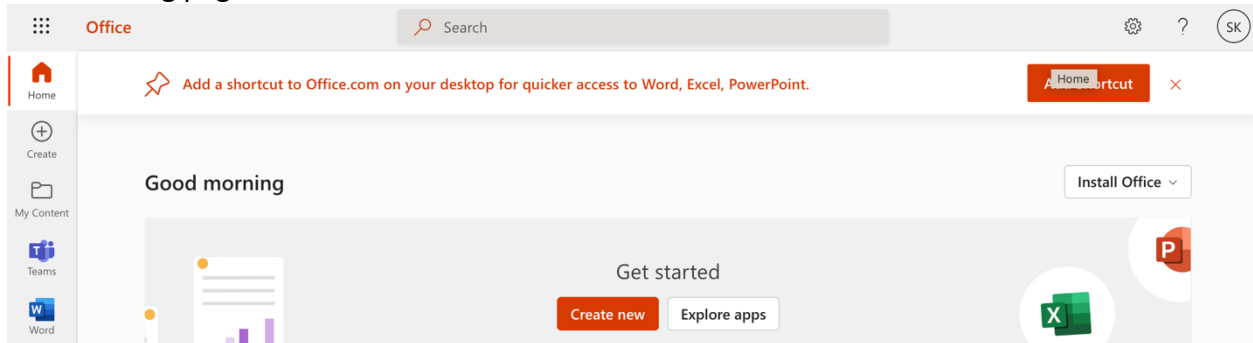

From the Microsoft home screen, click on the 9 dots at the top left, pictured below:

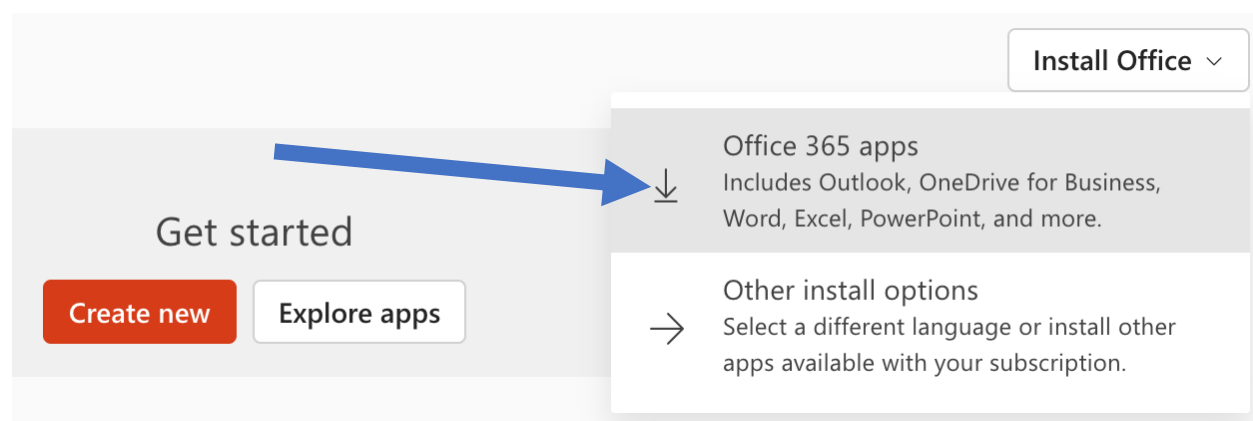

Then, from the menu, click 'Office →', pictured below:

The resulting page should look like this:

Click the 'Install Office' button with the drop-down menu and select 'Office 365 Apps', pictures below:

You are also free to use this online portal for your Microsoft Office tools, but I recommend using the downloaded version so that you are not affected by internet outages.
