This is an important reminder that the Degree Audit is only a tool and that the student is responsible for ensuring it is accurate and that they are fulfilling the requirements for graduation.

This document is an unofficial degree audit evaluation. It is meant to serve as a tool for you and your advisor, but does not catch everything - especially issues regarding double counting.

Look out for these colored progress markers ~ "Not started", "In Progress", "Pending completion of unfinished activity", and "Complete."

STUDENTS ARE RESPONSIBLE FOR ENSURING THEY HAVE MET THE MINIMUM REQUIREMENTS FOR GRADUATION as outlined in the College catalogue. Be sure to confirm you have met the minimum hours required for your Major(s) and/or Minor(s). While this program lists the "Minimum hours required:" and the "credits:" completed, it does not compare the two figures.

Every student must take at least 64 credits "in residence" at Allegheny College. This box displays progress to that goal. It is most useful for transfer students.

Program Summary: (In Progress)

| | Required | Current Earned | Current Remaining | Anticipated Additional | Anticipated Remaining |

(*) Anticipates completion of in-progress and registered and planned courses

Every student must complete at least 128 semester credit hours. They must also earn a minimum cumulative 2.0 GPA. This box shows credits already earned ("Current Earned"), total credits remaining ("Current Remaining"), credits currently in progress ("Anticipated Additional"), and the total number of credits remaining after the current semester, assuming current classes are successfully completed ("Anticipated Remaining").

(Credits in parentheses are anticipated earned)

This is where you will find courses that do not currently fill in any requirement above, as well as classes that you did not pass or that are currently graded Incomplete.

Notes:

- *E Extra - Either this course is not needed to complete this requirement, or else applying it would not have contributed anything toward the requirement's completion
- *G Grade - course failed the minimum grade requirement
- *IP In Progress

Please note these abbreviations, especially *IP, which is used to denote a course currently in progress.

Repeated Courses

If you repeat a course, you will see two entries on your Degree Audit. The earlier version of the course will appear in the "Other Courses" section with the note "*RP" for "Replacement Pending." While the replacement attempt is in progress the original credits and grade will not be counted towards the respective totals.

| Other Courses: | | | | | | | |
|----------------|-------------------------------|-------|-------|--------------------|----------------|-------|--|
| Course | Title | Term | Grade | Registered Credits | Earned Credits | Notes | |
| 2. CHEM*231 | Organic Chem: Form & Function | 16/FA | F | 4.00 | 0.00 | *RP | |

The current class will appear in the appropriate section of the Degree Audit and will be noted as both "*IP" for "In Progress" and "*RA" for "Replacement Attempt." Note the different semesters listed under "Term." This is how you may distinguish between attempts.

C: Chem Core (Pending completion of unfinished activity)

Take Chem*110 & 112 or CHEM 120 & 122; and Chem 231

Credits Earned: 12

| Course | Title | Needed | Term | Grade | Credits | Notes |
|-------------|-------------------------------|--------|-------|-------|---------|---------|
| 3. CHEM*231 | Organic Chem: Form & Function | | 18/FA | | 4 | *RA *IP |

Regardless of the result of the second attempt, that is what will count towards credits and GPA. This is true if the result is better or worse than the original.

Once the replacement attempt is completed both courses will appear on the Degree Audit without further notation, but only the most recent will be counted towards credit and GPA calculations.
